SETTTING DATE AND TIME
(To access, press MODE button 3 times from Normal Mode)
Press SPLIT/RESET to scroll through the programmable digits fields. The flashing digit is the digit that is ready to be edited. Use the START/STOP button to edit the flashing digit. When setting the hours, minutes, and seconds you can press START/STOP to reset the selected digit to zero; press and hold it down to quickly scroll. The hour digits will scroll through A (for AM), P (for PM) and H (for 24 hour clock). Press MODE to return to normal operation.

ALARM SET (To access, press MODE twice from the Normal Mode)
1. Once ALARM SET mode is accessed the hour indicator and MO icon will flash.
2. Press STOP/START to change the hour. This step also activates the alarm and displays the alarm indicator icon (bell in upper right-hand corner of LCD display).
3. Press SPLIT/RESET to select minutes.
4. Press STOP/START to advance the minutes.
5. Press MODE to save alarm setting and to return to time display.
6. To enable the Alarm, follow the instructions in step 3 of the Normal Mode section. Note that the Alarm time setting will reflect the AM, PM, or H mode programmed above in the SETTING DATE AND TIME section.

ALARM SNOOZE and ALARM SILENCE
When the alarm sounds, press START/STOP. A 5-minute snooze period will begin. To silence the alarm without snooze, press SPLIT/RESET after the alarm sounds.

HOUR CHIME (stop watch beeps once every hour on the hour)
To set the Hour Chime ON, press and hold SPLIT/RESET then press MODE (while continuing to hold SPLIT/RESET) until the days of the week switch OFF.

BATTERY REPLACEMENT
This Stopwatch uses an LR-44 or A-76 alkaline button battery. The Phillips head screws on the rear of the watch must be removed to open the watch and access the battery. It is recommended that a qualified technician replace battery. Battery life is typically one year.

CALIBRATION SERVICES
Extech offers repair and calibration services for the products we sell. Extech also provides NIST certification for most products. Call the Customer Service Department for information on calibration services available for this product. Extech recommends that annual calibrations be performed to verify meter performance and accuracy.

WARRANTY
FLIR Systems, Inc. warrants this Extech Instruments brand device to be free of defects in parts and workmanship for one year from date of shipment (a six month limited warranty applies to sensors and cables). If it should become necessary to return the instrument for service during or beyond the warranty period, contact the Customer Service Department for authorization. Visit the website www.extech.com for contact information. A Return Authorization (RA) number must be issued before any product is returned. The sender is responsible for shipping charges, freight, insurance and proper packaging to prevent damage in transit. This warranty does not apply to defects resulting from action of the user such as misuse, improper wiring, operation outside of specifications, improper maintenance or repair, or unauthorized modification. FLIR Systems, Inc. specifically disclaims any implied warranties or merchantability or fitness for a specific purpose and will not be liable for any direct, indirect, incidental or consequential damages. FLIR’s total liability is limited to repair or replacement of the product. The warranty set forth above is inclusive and no other warranty, whether written or oral, is expressed or implied.
